

Be fair to the kids

On the eve of Children's Day, you could take your tots out for a special exhibition for kids — Kids Central 2011 — a great place for kids' entertainment and some amount of shopping. The exhibition will host many fun activities related to arts and crafts, robotics and body painting and will have play areas for kids. You'll find a stall of the recently opened Make N Bake where kids can try their hand at pottery. The little ones can enjoy an artificial snow pit set up by Snow Wonder or play a game of mini soccer set up by the Soccer School of Excellence. They can also sit back and take in a book

reading session by Candy Cubes while parents pick up some clothes, toys, shoes and goodies from the exhibition.

Organised by Toral Kabra and Hetal Vashi, the exhibition supports some charitable firms and will donate proceeds towards planting trees.
